

USER MANUAL

EDYSON 2

Please refer to this manual before using the smartwatch

1. WEARING METHOD

Wear the device horizontally on your wrist, about one pinky-finger away from the carpal, and adjust to a position comfortable to you. Tighten the strap to get a more accurate reading of your heart rate and SpO2.

Use below picture as reference:-

2. DOWNLOAD THE APP

Scan the following QR Code to download and install the app.

01

3. PAIRING & CONNECTION

- Open the Da Fit app to set up your profile.
- Go to "Device" and click on "Add a Device".
- Choose your device from the list that appears.
- Your device is now successfully paired.

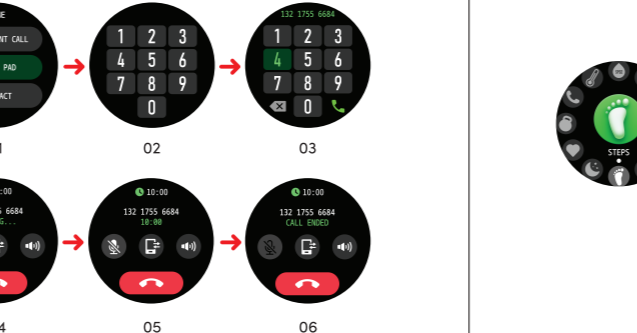

The MAC address "About" page in settings can help you identify your device in the scanning list.

- Go to Watch > Settings > Turn Phone "On".
- Go to your phone Bluetooth settings and select "AUDIO SENS 2" to connect and allow respective access.

02

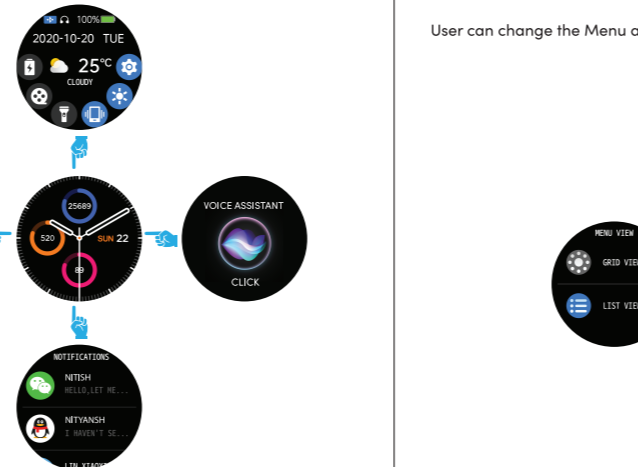

4. PHONE CALL

After connecting the smartwatch to your phone, you can use the watch dial feature to make and answer calls. You can also access your call history on the watch. You will need to ensure a stable connection between your phone and watch, and "Audio SENS 2" must be connected while managing phone calls.

03

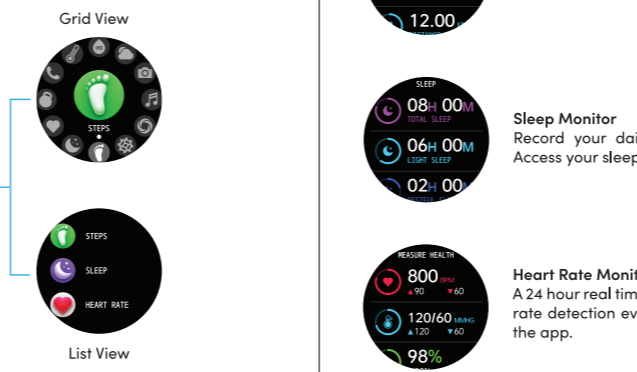

5. OPERATIONS

04

6. MAIN MENU VIEW

User can change the Menu and View as per their choice.

05

7. SMARTWATCH FEATURES

- Pedometer**
Get a record of daily steps and calories along with other data. Data history is also visible on the app.
- Sleep Monitor**
Record your daily sleep time, status and changes. Access your sleep history of the last 7 days on the app.
- Heart Rate Monitor**
A 24 hour real time heart monitor with automatic heart rate detection every 30 minutes. Find data history on the app.
- Blood Oxygen Monitor (SpO2)**
Monitor your blood oxygen levels (SpO2) with your smartwatch. You can view your updated SpO2 levels in real time and get further information and records on the app.
- Weather Data**
It shows the current weather info and tomorrow's forecast. The weather info is synced after connecting with the app and will not be updated after being disconnected for a long time.
- Games**
Enjoy fun gaming with Young Bird, where the aim is to control a flying bird by tapping the screen so it doesn't fly into any obstacles. Or play 2048, a popular slide puzzle, to bust stress and enjoy mathematical gaming at the same time.
- Theater Mode**
The smartwatch will turn off its vibration and turn down the brightness once you switch on "Theatre Mode".
- Stopwatch**
You can tap on the "Start" button to start the timer, and tap on the "Stop" button when you want to stop it.
- Remote Camera**
After connecting the smartwatch to your device, you can remotely control your device's camera through the watch and take photos or selfies.

06

8. REMOTE MUSIC

- Remote Music**
Remotely control your device's music through the smartwatch. Play, pause, or switch to the next song or the previous one.
- Alarm**
The app allows you to set up multiple alarms. The smartwatch will vibrate when it's time for an alarm to start off.
- Exercise**
Keep an exercise data record with the "Exercise" feature. You can choose from 15 exercise modes, and pick the ones best suited for you. Your most recent exercise data will appear on the Exercise page.

08

9. MESSAGE NOTIFICATIONS

- Message Notifications**
The smartwatch syncs and displays any incoming notifications from Whatsapp, Instagram, Twitter, Facebook and more. It can also store up to 5 of your recent messages.
Note: You can choose to switch your notifications "ON/OFF" on the app.
- Voice Assistant**
The smartwatch is equipped with Google and Siri for Voice Assistance.
Steps to Use:
 - Connect your smartwatch on "Bluetooth Audio".
 - Select "Voice Assistant".
 - Tap on the screen and speak to activate the Voice Assistant feature (Example: "OK Google" Or "Hey Siri").
 - Give any command you'd like the Voice Assistant to perform. (Example: "Tell me a joke." or "What's the weather like today?").
 - Check your phone for the launched Voice Assistant.

09

10. VOICE ASSISTANT

- Message Notifications**
The smartwatch syncs and displays any incoming notifications from Whatsapp, Instagram, Twitter, Facebook and more. It can also store up to 5 of your recent messages.
Note: You can choose to switch your notifications "ON/OFF" on the app.

13

Online Watch Faces : Please follow the steps below-
Go to 'Da Fit' App> Select 'Watch Faces'> 'Scroll Down' > 'Select More Watch Faces' at the bottom.

14

8. CHARGING

Attach the charging cable to the Smartwatch's charging port, ensuring the metal pins are fully connected.

Please use the correct charging adapter (5V/1A).
Note: If the smartwatch does not switch on after being left unused for a long time, please clean up the charging metal pins to make sure that they are connecting well.

15

9. KNOW YOUR DEVICE

1. Water-Resistant
The smartwatch is water-resistant, which means it is rain-proof and splash-proof and can withstand even the sweatiest of workouts.
NOTE: Do not swim with your Smartwatch. We also don't recommend showering with your Smartwatch, even though the water won't hurt the device. Wearing it 24/7 does not give your skin a chance to breathe. Whenever you get your Smartwatch wet, dry it thoroughly before putting it back on.

2. Quick View
Check the time or your messages on the smartwatch by simply turning the screen towards yourself.

3. Environmental Conditions
Operating temperature: 14 F to 122 F (-10 C to 50 C).

4. Size Guide
Ideal to fit wrist sizes between 5.5 to 7.7 inches.

16

10. PRECAUTIONS

5. Disposing and Recycling
It's the consumer's responsibility to properly dispose of or recycle the smartwatch. Electronic items should be discarded separately at electronic equipment facilities. For more information, contact your local e-waste management authority.

3. Some Android smartphones may accidentally close the app while cleaning the device. Please keep the mobile app running in the background. Steps to run the application in the background: Long press The app icon and go to app info > Click Battery Usage and allow background activity & auto-launch of the app (the setting method may vary from different devices).

4. Heart rate monitoring requires the watch to be fastened tightly. If it is too tight or too loose, the test may be inaccurate. If it's too tight, it will affect flow of blood and if it's too loose, it will affect heart rate sensor monitoring.

5. To avoid any physical damage to the device, make sure it doesn't collide with any sharp or hard objects.

6. Make sure you use the correct charger for the product. To avoid any damage and prevent short-circuiting, ensure the charger is kept away from moisture.

7. This product is an electronic monitoring product to deliver data for daily reference, not for medical reference.

1. Only one connected app can be installed on the mobile phone to ensure that the connection is normal before the data can be synchronized. If there are multiple such connected applications, they may affect the connection between the watch and the mobile phone.
Note: Some Android phones will prompt you that you cannot install them. Please open 'Location Source' in the phone's security normally.

2. When prompted, please give the necessary permissions by clicking "Allow". Permissions will be requested for the incoming of notifications, camera access to scan QR codes, and other functions. These permissions are normal and do not affect the performance of your phone. It's limited to a better Bluetooth connection between the app and the watch.

17

11. ROHS DECLARATION

Declaration of Conformity with the requirements of the e-waste Management Rules, 2011 (adopted by Notification S.O.1035 (E) of the Ministry of Environment and Forests). The Product conforms to the requirements of Rule 13 of the e-waste Rule.

The content of hazardous substances with the exemption of the applications are listed in SCHEDULE II of the e-waste rules:

1. Lead (Pb) - not over 0.1% by weight;
2. Cadmium (Cd) - not over 0.01% by weight;
3. Mercury (Hg) - not over 0.1% by weight;
4. Hexavalent chromium (Cr6+) - not over 0.1% by weight;
5. Polybrominated biphenyls (PBBs) - not over 0.1% by weight;
6. Polybrominated diphenyl ethers (PBDEs) - not over 0.1% by weight.

E-Waste (Management & Handling):
According to Waste of Electrical & Electronics Equipment (WEEE) the directive, WEEE should be separately collected and treated. If, at any time in future, you need to dispose of this product, please DO NOT discard it with household waste. Please send this product to WEEE points near you. The marking/ symbol on the product or carton indicates that the product and its accessories/parts (e.g. battery travel charger, hands-free, etc.) should not be disposed of with other household waste at the end of its working life. Please separate these items from other types of waste and recycle them responsibly for the conservation of the environment and collective well-being.

18

E-Waste Recycling Program:

We have tied up with government-approved recyclers for facilitating the collection of e-waste from our channel partners and customers for recycling. You are simply required to call our customer care number 1860-419-4111, and our representatives will direct you to your nearest authorized service centre. You can drop the device/ accessories at the e-waste box after inspection by the concerned person.
